Outgoings

Business Rates/Property Tax

No properties were found where KENBEET LIMITED is liable for the business rates / property tax. This could be for a number of reasons.

- The council hasnt published the data
- We havent found or been able to process the councils data
- The company is part of a group of companies and another company in the group is liable for business rates
- The registered office may be a residential address which does not have a commercial designation. If the business is run from home then it won't be a commercial property and hence won't be liable for business rates.
- Serviced offices are increasingly popular and therefore a business may not be paying business rates directly - the building owner is and this is incorporated in the office rental charge.
